

**Listing of Claims:**

1.-6. (canceled)

7. (previously amended) A self-adhesive woven glass fiber fabric wallpaper sheet, comprising:

a sheet of woven glass fiber fabric comprising woven strands and having a first side and a second side, at least said first side having raised points where said woven strands cross; and

an interrupted layer including a thermoplastic permanent adhesive adhering only to said raised points of said first side of said sheet of glass fiber fabric, wherein an amount and a viscosity of said thermoplastic permanent adhesive are designed for preventing the thermoplastic permanent adhesive from penetrating said glass fiber fabric and contaminating said second side of said glass fiber fabric, said thermoplastic permanent adhesive comprising a permanently tacky characteristic allowing mounting of said glass fiber fabric wallpaper sheet directly onto a wall substrate by said thermoplastic permanent adhesive.

8. (previously amended) The glass fiber fabric wallpaper sheet of claim 7 wherein said thermoplastic long-term adhesive is water insoluble.

9. (previously amended) The glass fiber fabric wallpaper sheet of claim 7, wherein said thermoplastic long-term adhesive comprises one of a water-insoluble hot melt and a pressure sensitive hot-melt adhesive.

10. (previously amended) The glass fiber fabric wallpaper sheet of claim 7, wherein said glass fiber fabric sheet comprises a structure that resists penetration by said thermoplastic long-term adhesive.

11. (canceled)

12. (previously amended) The glass fiber fabric wallpaper sheet of claim 7, further comprising a removable one of a release film and a sheet of paper on said layer including a thermoplastic long-term adhesive.
